

WELCOME
Sweet Heart

OUR MAGICAL
JOURNEY STARTS HERE!

SUNA SPACE

How wonderful that you are here and want to learn more about me and my work!

In the following pages you will find all the information about the whole process and a questionnaire that helps me to get to know you better as a person.

Dive deep into my universe

and find yourself within.

Discover the potential of yourself and show yourself the way you are.

SACRED SYMBOLS & EFFECT

I will translate your soul's desire, your dreams and visions, your intention and your life path into a geometric form. Together we will create a Sacred Symbol that radiates exactly the energy you want to manifest in your life.

It will be a great reminder and guide you to your innermost truth.

My gift to feel into you allows me to sense the essence of your soul and make it visible on the outside.

It's time to realize how beautiful and powerful you really are!

Come... and let me show you!

TIME, OPENNESS, TRUST & DEVOTION

Take your **time** for a self-reflection and be **completely open** with yourself and me.

All information between us is CONFIDENTIAL.

I am open minded, honest, approachable and transparent in my communication with you. Please be the same with me - you are invited to express everything that comes up inside.

Together we'll cocreate your individual Sacred Symbol. Trust the process just like I do and don't try to control it. It's all about letting go and surrender to the flow of creation.

It is possible that the result is not yet clear for you. You can completely trust and share any fears, doubts and worries that arise. In this moment, everything is perfectly right the way it is.

CEREMONY & LETING GO

Take enough time for the tattoo appointment. I heartily recommend to gift that day to yourself, and your body. Make sure your system has time and space to integrate it all.

We will talk about the estimated time frame after the final design of your symbol. Please keep in mind that the exact duration of your session may vary.

You have the option of booking a ceremony in addition to your tattoo session (general hourly rate). Through smudging and meditation, you connect even more deeply with your tattoo process. It gives you more clarity and peace.

We prepare your
Body, Mind and Soul
for the tattoo.
You can completely let go.

TATTOO SESSION & HANDPOKE

All tattoos get tattooed by hand. This technique is called handpoke. I use professional and sterile tattoo needles. The same type of needles are also used by machine tattoo artists. The tattoo process is identical. The only difference is that the needle is guided point by point directly by my hand - no machine at all.

This technique has many advantages. The process is more gentle on the skin, less painful and ensures faster healing of the skin. In addition, there is no unpleasant noise or vibration.

The pain can therefore be more easily accepted and processed by the body and mind.

HEALING & AFTERCARE

The tattoo needs about 14 days to heal completely. Under certain circumstances the period of time is longer or shorter... It depends on your personal healing conditions.

In order not to disturb the healing process, you should avoid bathing, going to the sauna or steam bath, water sports and sun exposure for at least 14 days. Make sure to keep the wound clean and avoid touching your tattoo.

To take care of your freshly inked tattoo I recommend a natural wound healing cream (e.g. Hustle Butter), which provides your skin with sufficient moisture and care.

Especially for reddened skin, I recommend antiseptic wound healing creams from the pharmacy (such as Bepathen, Panthenol or Pegasus (vegan)).

HEALING & AFTERCARE

CARE INSTRUCTIONS

CARE INSTRUCTIONS

The first 4 days 3x daily:

First wash the tattoo with lukewarm water and a pH-neutral perfume-free soap.
This cleans the wound in a gentle way.

Then apply the cream of your choice on your tattoo. Be careful not to use too much cream. Your tattoo needs enough oxygen to heal.

Repeat this process morning, noon and night time for the first 4 days.

From day 5:

Every skin heals differently. Dry skin usually needs more care than oily skin. So check individually how often you need to take care of your wound. I recommend at least 3x a day until the tattoo is completely healed.
